## Run #1568

When: Monday, October 6, 2014 @ 7:00 pm  
Hare: Dodgy Princess  
Where: 57 Biscayne Crescent Ottawa  
Hash Cash: \$10.00 for hash down-downs  
Distance: Eagles 8.33 Kms  
Distance: Turkeys-hare claimed to be 6.5 Kms  
Distance: Walkers-hare claimed to be 3.5 Kms  
Hashers: 38

It was not hard to tell that **Wong Way** was the principal Religious Advisor for this night's infamous event. All morning it had been raining and windy and the RA must have done something to appease the hash gods because in the mid-afternoon the skies opened to reveal the sun was really behind those preceding dark clouds. This break gave the hare and her young accomplices a chance to set the trail. And a fine trail it was!

During the opening circle **Dodgy** explained the marks and informed us that she was incorporating a new mark called “ a hook ”. Think of a fish hook with an arrow head on the short part - well that is the hook but with a number beside it. Do not get this confused as a check back, like the usual late comer (not mentioning any names but can you say **Mustard Balls**) did. The number simply means that is the ‘ number ’ of Front Running Bastards who must turn around and go to the end of the pack. The late comer was certainly muddled when he could not find where to go when he went back the required number but somehow managed to make it to the circle.

The trail was a good mixture of residential running as well as recreation paths and sports fields. **Dodgys** young helpers acted as sweepers as well as directing the runners at the turkey and eagle splits. The great number of checks combined with the long false trails, song stop and occasional hash hold kept

the runners together and everyone arrived back at the ON IN within five minutes of each other. Well five minutes except the late one.

The circle was filled with jocularly with much loud laughter for **Jean Pierre's** true story of him picking up an older lady at a bar and being taken home and, in recognition of **Cash Wench** getting a new job at the Experimental Farm, **Fat Ass** and **Sheila** did their version of Old MacDonald's Farm! While there were the usual derogatory remarks in reference to the trail it was not difficult to mark it 6.9!

After the closing of the circle it was inside for some home-made comfort food of, samosas, 'real' shepherds pie or a vegetarian shepherds pie, salad, and fresh pineapple and cookies.

While there was no rehydration stop on the night's adventure personally I do not think it was missed that much. Now that colder weather is upon us should we all not think twice about whether one is really needed?
