Distance: Eagle Runners 9.11Kms
Distance: Walkers +/- 5Kms
Hashers: 32
 1 visitor (**Driving Miss Daisy**) from Calgary

Almost all of the hashers did show up dressed as their hash name. "Neon Stripper" handing out strips of pink plastic tape, "Hump Me Dump Me" complete with a hump and a dump truck, "Tin Man" wrapped in tin foil, "Scratch n Sniff" as a werewolf, "Oinky Boinky" as a cute pink piggy, "Delhi Belly" as a maharaja, "Cums in Spurts" in spotted pyjamas "Bite My Beaver" in a furry costume and many others.

It being reading week for the university the hares opted for a the new venue of Oliver's Pub. No doubt this was an old hang out for some of the Ottawa hashers! And, perhaps the hares simply wanted to reminisce about some mis-spent youth. No matter the reason the venue proved to be quite capable of withstanding the jocular^y of the circle.

it is a shame that the same could not be said about the trail. At the opening circle only one hare was available for directions stating that it was kind of a live hare and the other one had set out. Even more confusion reigned when she tried to explain the marks (marked in secret government documents and chalk) and said that the last trail she set was 14 kilometres long. Hearing this brought forth many loud groans from the assembled group!

Never-the-less it was ON ON upon a very well marked trail around various buildings and residences on the campus to the Turkey Eagle split where the 'live' werewolf (hare) was waiting for us. At the opening circle the walkers were informed on how to get to the T/E split and then take the turkey trail to the rehydration stop. At this juncture most of the pack took the Eagle trail across the canal and through the Arboretum, including a bit of mountain climbing. Have I ever told you: that "I hate hills!" The loop took us back to the Turkey Eagle split and the hare said it was straight on and just follow the marks. At the four kilometre mark the pack was all wondering just where and what the marks were! The pack did eventually come up a Check and before the area could be fully explored the hare said it was still straight on and then gave some very either confusing, misleading, or I really don't know instructions on just where the trail went but it was still ON Straight! Just before the five kilometre mark the Eagles met up

with the returning walkers who had made it to Hog's Back Road without seeing any marks and decided that it was just as easy to head back to the ON IN.

Undaunted the Eagles continued to carry on along the route the hare had more or less directed us. Finally seeing one mark (+/- 6.25k) there were shouts of joy but, alas, they were short lived. The one saving grace was the hare was with the pack and it turned out misdirecting. Finally at the 7k mark the hare yelled "I know where we are! I know how to get to the beer stop!"

Eighteen hashers eventually made it to the most welcome of rehydration stops which included not only the usual hash water but also some fermented grape juice as well as non-hash water. Just as these 18 were packing up to leave runners could be seen on the bridge and calls of ON ON rang out from below. Another six hashers made it down the hill in time to be rehydrated and claimed that after the +/- 6.25k

mark they were on a MARKED trail which was completely different but did meet up at the 7K mark.

Back at the ON IN the runners met up with the walkers and slackers for some liquid refreshment and the circle.

Driving Miss Daisy was called in and explained that she was here from Calgary for a short time visiting a friend. Of course the hares were called in to explain a trail that should have been called: “**What happened to the marks**” and were severely punished. Both the stand-in GM and RA had many other crimes that were brought forth.

While there were many moans and groans, about the hills, length and the lack of marks on the trail it was given a well deserved thumps up!
